Number 28.

LITTLE WORK FOR COUNCIL LAST MONDAY

No Business of Importance Up for Discussion—Civic Improvement League Donates \$50.00 for Cemetery Fence.

The regular meeting of the town council was held last Monday evening. Mayor Bell occupied the chair and Councillors McLean, Oates, Lavelle, Broughton and Howard were present. After the reading and adoption of the minutes of the previous meeting, the secretary read a list of water accounts for soldiers' dependents and on motion of Councillor Lavelle and Lavelle same were written off the books. The secretary of the Civic Improvement League was on the council stating that they were willing to place the sum of \$50.00 at the disposal of the council for the purpose of fencing the cemetery site. On motion of Councillors Oates and Howard, the amount was received and the clerk authorized to acknowledge same with thanks. It was brought to the attention of the council that Sanitary Inspector had to make several trips to some houses before being able to collect fees for their water. On motion of Councillor Howard and Lavelle, the Inspector was instructed to provide a list of houses to be visited at such houses, giving occupants 48 hours to pay accounts and in default of payment the delinquent to be summarily dealt with as provided by law. Councillor Broughton drew attention to the bad habit some people had of tethering cattle and horses near streets and lanes. These animals wander across the street and their chains or ropes are dangerous to both pedestrians and vehicles. He asked that in case of accident whether or not the town could be held liable. Town Solicitor Lavelle said it would be a case for civil action and the owner of the animal would be liable for any damage. Councillor Lavelle brought up the question of procuring a democrat for the town and said one could be bought from Mr. McCreary for \$40.00. On motion of Councillors Howard and Lavelle the town foreman was authorized to purchase same. Councillor McLean voted nay. On motion of Councillor Lavelle, the town foreman was authorized to make alterations in the town water mains as suggested by Street Foreman Kitchin. These provided for the changing of some good pipes from pipes from districts where they were very little used to other more thickly settled areas where the pipes are in need of repairs. The matter was referred to the water committee to report.

There was some discussion about the good damage being done to vacant buildings by the boys and it was decided that a special effort be made to catch some of the destructive ones and make an example of them. Council then adjourned.

Hun Ambassador to Russia Assassinated

Fighting took place in Moscow between Bolshevik forces and the revolutionary Socialists, and it was from this conflict that Count Mirbach, the German ambassador to Russia was assassinated. According to a Moscow telegram to the Frankfurter Zeitung, the two assassins of Count Mirbach fled after committing the crime to a building occupied by Socialists, and it was there where they were being defended with machine guns. It is declared in the article that the assassination of the German ambassador was to have been the signal for a big revolt under the leadership of the Social Revolutionists, but this failed to materialize and the plan had been planned. It seems from this account that the fighting between Bolsheviks and Social Revolutionists reported taking place in Moscow was an outgrowth of the town Mirbach's affair. The Frankfurter Zeitung's message from Moscow mentioned such fighting was taking place in the various parts of the city where the dispatch was filed, but gave no details.

Redcliff Wins the First Ball game

The quality of ball put up at the baseball match played here last Saturday evening between the local nine and the Iron Workers' line-up on the Redcliff grounds, was indeed a great surprise to a fairly good crowd of spectators. A full nine inning game was played and Redcliff won by six runs to three. The game was a pitchers' battle and in this the home team had a slight advantage, as Barr had nine strike outs and was safe to his credit, while Myers had only seven strike outs and allowed three hits. This was lucky for Redcliff, as the outfield was their weak spot. The game throughout was interesting and at no stage was the result checked until the last man was retired in the first half of the ninth. The teams were very evenly matched. The only difference was that where one was weak the other was strongest. With some changes in the local Redcliff would have an aggressive attack that would make them all up and take notice. The only fault to be found with the outfield was that the players were a little young for the company they were representing. Considering this fact it was remarkable well. Now that a start has been made in this time it is hoped they may have more game this summer. The teams lined up as follows: Redcliff—Hart, Metts, Smith, Myers, Mellow, Drayton, Burns, Saller, Potts and Bellamy. Redcliff—Brownlee, Hume, Millard, Barr, Harris, Simmons, Duggan, Nelson, Horn. Score by innings—Med. H—0 2 0 0 0 0 0 1 0 5—2 Redcliff—0 1 2 0 0 0 0 9 3—9

Govt. Will Assist Providing Winter Feed For Livestock

Hon. Duignan Marshall, minister of agriculture for Alberta, announced that in view of the serious shortage of feed for cattle and sheep his department was undertaking an extensive campaign of inquiry as to methods of relieving the situation and preventing anything in the shape of disease being brought to the province. The minister stated that A. E. Meyers, superintendent of the schools of agriculture, who had been charged with the direction of the greater production campaign would utilize the men who have been doing the greater production work for this purpose. The men located in the districts that are suffering from drought would immediately cover their territory by motor and see that the men and find out what they wish. The purpose of the department is to put these men in possession of information that will enable them to secure land either for grazing or for the cutting of hay and the department is particularly desirous that all the men who have either cattle or sheep and require feed will make their wants known immediately to the department's agents for greater production in their particular locality. In this case what the department wants is specific information as to just what is wanted. If an owner of livestock is prepared to arrange for the cutting and putting up of hay the department will endeavor to locate hay land for him. If he wishes to move his livestock, land will be located and if he wishes to dispose of any part of his livestock the department will endeavor to put him in touch with buyers in need of animals as to conserve all the useful breeding stock. "I feel sure," said Mr. Marshall, "that there is enough feed in the province of Alberta to winter all our livestock if we can only arrange for an effective distribution either by the use of bringing hay to the livestock or taking the livestock to the feeding ground, and I earnestly hope that the livestock owners will be so happy sacrificing of their cattle or sheep."

Italians Still Make Gain on Adriatic

The allied offensive in Albania is continuing, the Italian war office announced Tuesday. New progress has been made along the left wing on the Adriatic coast, land forces being assisted by British bombers. Italian infantry captured the town of Blieri and took important heights. More than 1,200 prisoners were taken in the advance. Italian cavalry felled Macedonia at the north of the Lower Vojussa, between the western slopes of the ridge and the Adriatic, and getting across into the Adriatic river destroyed the bridges over the Semini river to the north. 400,000 PEOPLE LACK FOOD. It is estimated that 400,000 people in Europe are short of food. In Poland, Finland, Serbia, and Russia, millions are actually dying of starvation and other millions are suffering from under nutrition, while millions are living on the barest possible margin.

SAYS FARMERS SHOULD FEED POOR CROPS

W. F. Stevens, Live Stock Commissioner for Alberta, gives the following advice to Farmers Concerning Present Crop Conditions. A trip through the prairie section discloses the fact that there are many fields already headed out, but so many are in the straw as to make it impossible to catch it with the binder, even though rain should be abundant from now on. How can such be utilized to advantage? Such fields can be pastured off, and a large amount of feed secured. If this is done before the grain begins to grow, the crop will spring up from the root, and if a few summer rains should follow, a good crop of grain can still be harvested this year. The straw and the crop of green feed fed to the stock man who has a field of grain so short in the straw as to be impossible to cut can well afford to sacrifice to the chance of getting a good crop of green feed instead. Ranchers can well afford to buy the grazing on fields at that kind and the crop of green feed from their grain-growing neighbors. Another means of securing late early spring feed is by sowing winter crops. This crop will be in the most parts of the province. It may be sown as late as August 15th.

Canada's Premier Tells What we Have Done

Sir Robert Borden, Canada's premier has been selling the leaders in the Netherlands of the Dominion's war activities since he was last across the ocean a year ago. In 12 months Canada's achievements have increased from 600,000 to 500,000. Canada's army in France, in a year's time, is greater by 35,000 men. In recent months the Military Service Act has been enforced, adding substantially to the necessary re-inforcements. Canada has developed into a maker of munitions, weapons and explosives. As a purely home industry, because of the emergency of the critical hour, shell and gun manufacture in the Dominion is another striking evidence of Canadian enterprise and resource. The output has now reached the billion dollar mark and is steadily on the increase. The funds that launched this colossal undertaking, however, were mostly won right at home. Sir Robert's acceptance of Canadian stewardship has filled the mother country with pride and gratitude. Not the least notable feat he commemorated concerned Canadian-American reciprocity and friendship, and the new co-ordination in legislative measures between Ottawa and Washington. After all, perhaps, this enhanced fraternity and deepening of mutual esteem and affection is the most potent development of the hour for Dominion and Republic.

Italians Still Make Gain on Adriatic

The allied offensive in Albania is continuing, the Italian war office announced Tuesday. New progress has been made along the left wing on the Adriatic coast, land forces being assisted by British bombers. Italian infantry captured the town of Blieri and took important heights. More than 1,200 prisoners were taken in the advance. Italian cavalry felled Macedonia at the north of the Lower Vojussa, between the western slopes of the ridge and the Adriatic, and getting across into the Adriatic river destroyed the bridges over the Semini river to the north. 400,000 PEOPLE LACK FOOD. It is estimated that 400,000 people in Europe are short of food. In Poland, Finland, Serbia, and Russia, millions are actually dying of starvation and other millions are suffering from under nutrition, while millions are living on the barest possible margin.

To Meet at Box Springs Wednesday

Kept in mind the joint meeting of Farmers and Townspeople, at Box Springs, Wednesday evening, July 17th. Everybody in town who has an automobile should see that he gets up a load for the occasion and every business place should be represented at the meeting.

Redcliff Visited by Numerous Side Shows

Commencing on Tuesday evening of this week the vacant lots on Broadway next to the Royal Bank were transformed into a regular midway. Here a travelling company had pitched tents for all kinds of side shows and a large emery-ground and five wheels occupied central positions. Slide hills which usually form part of old time circus attractions, such as horse, goat, Aunt Sally, ring throwing, fortune telling, palmistry, etc., were very much in evidence. The Ferris wheel and Merry-go-round furnished considerable amusement for young and old and both were well patronized.

Bone-Dry Bill In U.S. Senate

Legislation providing for practically absolute prohibition in the United States during the war was reported to the Senate after the agriculture committee had agreed to drastic changes in the Norris amendment to the \$11,000,000 emergency agricultural appropriation bill by which the sale of distilled spirits, beer and wine, except for export would be prohibited after next January 1, and that manufacture of beer and wine stopped after Nov. 1.

Under the amendment, as reported, the removal of distilled spirits held in bond would be prohibited after Jan. 1, except under regulations prescribed by the commissioner of internal revenue with the approval of the secretary of the treasury. The commissioner also would prescribe regulations for the sale and distribution of wine for sacramental, medicinal or other non-beverage purposes.

Uprising spreading Now in Siberia

The situation in Siberia is undergoing important changes and the counter revolutionaries are spreading from the south to the north. The Bolsheviks are spreading all over western Siberia, says a dispatch to the Times from Peking, dated July 4. The Bolsheviks are being driven westward from Irkutsk and are endeavoring to escape into Mongolia. Referring to the Czecho-Slovak movement as a lead for the struggle against Bolshevikism in Siberia, the correspondent predicts that it will lead to the elimination of the Bolsheviks in a short time. The question of intervention, however, is still pressing, he adds, because Russia is torn with political differences and personal jealousies and there is urgent need of responsible government. Political critics in Harbin are discussing the danger of a new government in the eastern provinces which may be formed of elements favoring the old regime. Pre-ally forces at Harbin have declared for an immediate summoning of the constituent assembly and the appointment of a provisional government, the real need of the situation.

Registration Returns Proving Satisfactory

With approximately 60 per cent of the constituencies of the Dominion heard from, the Dominion Registration Board, of which Hon. G. D. Robertson is chairman, reports that the old returns show that 2,249,015 Canadians registered on June 22. The number of males who registered in 1912 compared with male complete returns have been received was 1,186,116, while female registrants numbered 1,112,899. These figures are considered satisfactory by the board. Pre-ally forces at Harbin have declared for an immediate summoning of the constituent assembly and the appointment of a provisional government, the real need of the situation.

Redcliff Couple Joined in Wedlock

A quiet wedding was celebrated in St. Patrick's church, Medicine Hat, on Monday, July 1st, when Edith Hackett and Miss Violet Miller, daughter of Mr. and Mrs. S. Miller, of this town, were united in wedlock by Rev. Father Fitzpatrick. Miss Jane Watson supported the bride while Walter Fitzhery acted as best man. After the wedding ceremony the young couple returned to Redcliff and were entertained at the home of Mr. and Mrs. Arthur Fitzhery, where a delectable wedding dinner was served. After dinner a pleasant evening was spent. Mr. and Mrs. Fitzhery will reside here in future.

Local Baseball Team Loses to Medicine Hat

The baseball team from here went to Medicine Hat last evening and played a game with the Cereals or batters. Although our boys were beaten in the time of it is a game which was much more interesting than the score would indicate. It was quite a surprise throughout the game the boys from here were badly defeated in practice and those who watched the game felt sure that they were the better of good individual players. It had not been able to make much headway, either in winning games or getting the people interested. Lack of proper practice has been the fault for many years, and for this reason although we have always had our share of good individual players, we have not been able to make much headway, either in winning games or getting the people interested.

Proxy Entries for Soldiers Homesteads

A new order-in-council containing a regulation which will permit the Minister of the Interior to designate who shall be allowed to make a proxy homestead entry for a soldier under the Soldier Settlement Act has been passed by the cabinet. Under the soldier settlement regulations, it was provided that entry might be made by proxy on behalf of a husband, father, mother, son, daughter, brother or sister. Many of those eligible to secure soldier grant territory, however, have also the right to secure ordinary homestead entry so the government has supplemented regulations already passed by a new order-in-council, which permits the Minister of the Interior to allow proxy entry to be made for a soldier by others than those above-mentioned.

Next Victory Loan Free From Taxation

The government, after careful consideration, has decided that the bonds of the next victory loan will like those of all previous issues, be free of all Dominion taxation. With such a large body of existing securities tax free, it was felt that it would jeopardize the success of the new loan to make it subject to income taxation and attempt to float it at the same interest rate as the last issue. If made subject to super-tax, those desiring such securities would purchase on the market, tax-free securities in preference to subscribing to the new loan.

Russias' Situation Worries Austria

"Changes in Russia are imminent," says the Frankfurter Zeitung. "If the present situation should lead to the collapse of the present government, then not much will remain of the peace treaty. Our problems would then become more complicated than ever. Let us not wish in the shadows of the sword will play as little role as possible. Nevertheless, the central powers can on no account permit the enemy to find fresh resources in the east." In France, within sight of the guns, with almost hope that in the shadows of a great meeting of Canadians celebrated Dominion Day and welcomed the Duke of Devonshire, last premier, and Sir Robert Borden, prime minister of Canada.

RED CROSS TO TRY TO FORM AUXILIARIES

Object to Help Supply the Increasing Demand for Work—Mrs. Harbert Appointed Organizer for the District Will Commence Work as Soon as Possible.

The regular meeting of the Red Cross executive was held in the Society's rooms last Tuesday afternoon and there was a good turn-out of members present. Numerous communications from the local organizations were read, most of which referred to the growing necessity of increased energy in Red Cross work. As a means to this end the executive suggested the forming of auxiliaries in surrounding settlements. This was thought advisable and Mrs. Harbert was appointed to investigate the feasibility of purchasing a sewing machine for the Society's room, reporting that Mrs. P. Ojlin had offered to supply a machine for use as long as required, gratis. This kind offer was accepted amid great applause and a motion was passed thanking Mrs. Ojlin in a hearty vote of thanks for his generous offer. A motion was also passed tendering Mrs. (Mrs.) Brown a vote of thanks for her donation of knitting needles to the society. The following financial statement was presented by the honorary treasurer:

Allies Prepared for Approaching Drive

The coming German blow will not be less dangerous because of the time employed in preparing for it, but it is comforting to know that the men responsible for the command of the Allied armies are confident of the result, said Mr. Bonar Law, chancellor of the exchequer, at a dinner to the delegates of the parliamentary commercial conference. "It is impossible to foresee the future," he said, "I do believe that the faithful hour of this war is upon us and if in another three months our enemy have won no strategic advantage, then our campaign will have failed and it will, I hope, be a decisive failure."

Russias' Situation Worries Austria

"Changes in Russia are imminent," says the Frankfurter Zeitung. "If the present situation should lead to the collapse of the present government, then not much will remain of the peace treaty. Our problems would then become more complicated than ever. Let us not wish in the shadows of the sword will play as little role as possible. Nevertheless, the central powers can on no account permit the enemy to find fresh resources in the east." In France, within sight of the guns, with almost hope that in the shadows of a great meeting of Canadians celebrated Dominion Day and welcomed the Duke of Devonshire, last premier, and Sir Robert Borden, prime minister of Canada.

THURSDAY, JULY 11, 1918.

DESTRUCTIVE BOYS.

When one hears so many reports of the wanton destruction to vacant buildings by careless and unthinking boys, and sees so many evidences of this mean practice, one wonders if parents ever take their boys to one side and have good plain talks with them, to impress upon them how despicable such a habit is.

Evidently there are a great many who do not. In fact if one were to judge from the matter at the council meeting last Monday evening there are some parents who are inclined to show fight if anybody else offers advice to destructive boys caught in the act.

Judging from the attitude of the councillors when the matter was being discussed at the last meeting there is trouble brewing for some of these boys. Then it will undoubtedly cost their parents more than a little time for advice and timely warning.

The amount of damage done both inside and outside of vacant buildings in this town is disgraceful. There surely should be some drastic measures taken to put a stop to it, and in this we believe none can help more than the parents themselves.

TETHERING CATTLE.

On several occasions in the past our attention has been drawn to the very bad habit some people have of tethering horses and cattle on vacant lots in such a way as to permit the animals to wander out on the streets.

As these animals are usually tethered with stout rope or chains, and as it appears to be their nature to cross over in front of an approaching car, it can readily be seen that a considerable element of danger accompanies this habit. Several cases have already been reported where both cars and pedestrians have found themselves in bad mix-ups from this habit, and have narrowly escaped serious accidents. On one occasion a car was damaged, but as the damage was slight the owner of the cow was not called upon to make good the breakage. This may not always be the case and as the owners of such tethered animals are liable for any damages they may cause, we would advise a little more caution in this connection.

AFTER SPECULATORS.

The Canadian Council of Agriculture which met in Winnipeg this week had many suggestions to offer the government in the working out of the land question of the west, and also regarding the operation of the Military Service Act.

In order to get the land speculators to do something with this vacant land which they are now holding and which is being increased in value because of the development being done by farmers on adjoining farms, the council suggests that these speculators be compelled to put a price on their land and that it be then taxed according to their own valuation.

This looks like a good suggestion and if acted upon would go a long way towards getting the land under cultivation either by present owners or by those who

are anxious to procure it at a reasonable price.

We do not need to go far away from our own doors to see how land speculators are retarding agricultural development. Nor do we need to go very far afield to get ample proof that these same speculators are taking advantage of the unearned increment brought about by the energy and perseverance of the bona fide farmers of the district. As a reward for their services in this regard, these farmers, many of whom now wish to increase their holdings, are being asked to pay dearly for their energy and perseverance by this high price now being asked for this land. This is not very encouraging, especially in view of the fact that the present owners secured this land from the government a few years ago for a song, so to speak.

We trust the Council of Agriculture will make some headway in this connection.

SUNDAY WORK.

The dispatch from the prime minister announcing that the Lord's Day Act would not be amended this session corrects a report that was current a few days ago. It was reported that Sunday work on the farm and elsewhere would be allowed by the law in order to increase production during the war. Such changes in the law seem to have been sought by some interests, but when the proposition was made public protests went to Ottawa from all directions. Not only the workmen, but the farmers of the west and elsewhere prefer that the law remain as it is. Our information is that some of the immigrant farmers from foreign countries expressed a desire for an open Sunday in the harvest.

The average farmer finds six days' harvest work for him and his hired help. Besides the Act itself makes allowance for emergency work.

USE SUBSTITUTES.

Canada's new wheat crop will not restrict the consuming public as flour for three months at least and in the meantime this country will be very short of wheat flour. We have—as has also the United States—shipped as much wheat as possible to the Allies, giving the a considerable share of our own normal supply to help carry them over until the new harvest has come onto the market and the corner has been turned. The use of substitutes, therefore, becomes an immediate necessity in this country and our people should familiarize themselves with methods successfully used in baking these substitute flours.

On the first of July the Canadian Food Board ordered bakers effective in requiring all public bakeries and private households also to use 10 per cent substitute flour. On the 15th of July this percentage is to be increased to 20 per cent, in all of Canada east of Port Arthur. The question arises in the mind of each housekeeper's mind, what are substitutes for wheat flour, where can they be had and how are they to be used. Substitutes as defined by the new law, include bran shorts, corn flour, corn meal, edible cornstarch, hominy, corn grits, barley flour, rolled oats, oat meal, rice, rice flour, buckwheat flour, potato flour, tapioca flour, rye flour and rye meal.

There has been some talk about the price of substitutes being high in proportion to flour but it is expected that this condition, will remedy itself as the new flours get into general circulation throughout the trade. In the case of corn meal, the price has advanced for corn in

Chicago on account of market conditions. Canadian millers were depending on American corn, and advanced the price of corn meal accordingly on all new contracts. It is not expected that this market condition will continue, however, as there has been plenty of corn in the United States since last harvest, although difficulty of distribution arose through lack of sufficient transportation facilities and similar causes. With the 1918 crop in prospect, it is expected that there will be a still more plentiful supply for the coming season.

It may be necessary to experiment with these substitute flours a few times before succeeding in producing a satisfactory loaf, and opportunity should be taken to study the effect of these substitutes and the different methods of mixing, handling, fermenting and "proofing" of the doughs.

Receipts and instructions for the use of different substitutes may be found in another column of this issue.

The Canada Food Board is sending out circulars containing recipes for making jams out of all kinds of fruits. These recipes show the most economic method to get the best results and their aid in the conservation movement. These circulars may be had free on application to the Canada Food Board, Ottawa.

"Don't say on Thursday morning that you forgot all about the meeting at Box Springs next Wednesday. Get busy now and make arrangements for getting out there. This will be an important meeting. The farmers of the surrounding country turned out well to the meeting here. It is up to us to return the compliment."

Instructions For

Wheat Substitutes

As the Canada Food Board is now strongly advising the use of substitutes for wheat flour in order that the people of Canada may more successfully assist with the great food problem we reprint a few instructions and recipes for using some of these substitutes. As most of the wheat flour substitutes accelerate the fermentation, it will be better not to work the dough as long as usual. About four hours for fermentation will be sufficient in a room of moderate temperature, divided as follows:

Two hours and 45 minutes for the first punch.
 Forty-five minutes for the second punch.
 Thirty minutes is allowed before the dough is finally taken out, kneaded and cut into loaves. After being set in the pan, 45 minutes is enough for "proofing" when it is ready for the oven.

When corn meal, oat meal or other meal is used the moisture retaining qualities of the loaf may be improved by scaling these ingredients at a temperature of 160 degrees Fahrenheit and allowing two hours for cooling. Most of the wheat flour substitutes retain the moisture in the loaf longer than will the wheat flour and yield an

increased amount of bread on account of their higher absorption of water, thus reducing the amount of yeast and shortening necessary. The following are a few of the recipes recommended by the board. They will be useful also to private households when substitute flour is mixed with wheat flour for bread.

CORN FLOUR BREAD.
 2½ pounds standard flour, 1½ pound corn flour, 1 tablespoon brown sugar, 2 tablespoons salt, 1½ oz. yeast, 1 tablespoon fat, 2 cups of water. This should produce 4½ pounds of bread.

BARLEY FLOUR BREAD.
 2½ cups wheat flour, 1-1½ cups barley flour, 1 cup milk and water, 1 oz. of compressed yeast, 2 tablespoons sugar, 2 tablespoons salt, 2 teaspoons fat.

This should make two loaves.
RICE YEAST BREAD.
 8 cups standard flour, 7 cups boiled rice, 1½ cup milk and water, 1½ cup warm water (for yeast), 1½ cups compressed yeast, 4 teaspoons salt, 1½ teaspoons salt. When ready for the pans will look like a stiff dry batter. The quantity

Wants Roosevelt To Help Ireland

Col. Arthur Lynch, Nationalist member of parliament for West Clare, who recently accepted a commission in the British army and has come to Ireland to assist in the recruiting campaign, has sent an eloquent appeal to Col. Theodore Roosevelt for co-operation in Irish recruiting. He asked Col. Roosevelt to send a message to the Irish people, or to come himself, to Ireland. In the course of this communication, Col. Lynch said:

"Send me a word of encouragement, my better will, my great and splendid friend, come yourself in all your prestige and power and influence and help me win the souls of the young men of Ireland to the allied cause."
 "There are grave and deep difficulties, lamentable stories of cheated hopes, unrecognized rights and hatreds for wrongs inflicted in the past. But one feature throws these matters into the proper perspective—the fact that the Germans are thundering at the gates of Paris and are hammering at the channel ports."
 "If they win, it will be needless to make plans for Ireland or dream dreams of liberty."

RECORD IN SHIP BUILDING.

Workman, Clark Company, ship builders of Belfast, Ireland, have achieved a world's record in completing an 8,000-ton standard ship in 15 days after she was launched. The vessel was launched at 9 o'clock in the morning, and by 8 o'clock the same evening all her engines and boilers were in place.

"CAN'T SAG" GATES AND STEELS

A Better Farm Gate that Costs Less Than Home Made Gates.
BETTER—Because They always hang plumb and straight. They can't sag even one-quarter of an inch. Steel cannot twist them out of shape. They are flexible but almost indestructible. They weigh only about one-half as much as ordinary all-wood gates, but are stronger than steel, wire or cast-iron gates.
CHEAPER—Because they cost no more than clumsy all-wood gates. They last three times as long, they can be repaired quickly without expense and they are made from the same material as the gates you see and see sample at our yard.
ATLAS LUMBER COMPANY, REDCLIFF

DON'T LEAVE REDCLIFF

For anything in our line. We handle pumps, well casing, gasoline engines, Iron Pipe and Fittings, or anything in Sheet Metal from a Water Tank to a Kitchen Sink or a Flue Pipe. We also carry a first class stock of Gas and Plumbing supplies.

Note change of address.

Allies Prevent Hugs Making Preparations

While waiting for the German high command to show its hand in beginning a new assault, the allied forces on the western front are giving the enemy little opportunity to perfect his arrangements for launching, his expected, but still deferred attack. From the Leyser sector on the north, to the Champagne front in eastern France, there have been sudden thrusts at the German lines, at least on which had gained considerable ground. This particular blow was struck by the French west of the Oise and north of the Meuse river, on the battlefield where the Germans were stopped short in their attempt to hew their way through to Compiègne early in June.

The French advanced along the Compiègne front northwest of Antheuil and occupied the Leyser and Port farms on each side of the highway. The ground they have taken is important, and cuts down the area in which the Germans must manoeuvre in this part of the battle area.

Eat less Bread

FARMERS!

Now is the time you should think of your Fire Insurance, as the cost of good grain and labor is surely worth your protection. Remember that we have several of the strongest companies taking Fire Insurance. These companies make prompt and liberal settlement. We would be pleased to have you consider us when placing this insurance and if we do not see you before your insurance is placed, kindly call at our office and permit us to tell you about our companies.

English Church Holds Successful Summer School

A very interesting summer school, the first of its kind, was held in Redcliff on Monday, July 1st., and continued on Tuesday, July 2nd, in Medicine Hat.

There came as lecturers Rev. R. A. Hiltz, secretary of the Sunday School Commission of the Anglican church in Canada; Rev. N. L. Ward, superintendent of Chinese missions, and Rev. Prof. Cosgrove, of St. John's College, Toronto. After prayers and Bible study at St. Ambrose church, Redcliff, luncheon was provided by Mrs. Lodiatt and Mrs. Harbert for the members who included the Diocesan General missionary, the venerable Archdeacon A. E. Burgett and the clergy of the Medicine Hat rural deanery. The Rev. N. L. Ward occupied most of the time which followed, and later in the afternoon he visited the Chinese club. After supper he gave a most interesting account of mission work in China, in the parish hall. At 8:30 Mr. Ward, who is known far and wide among the Chinese, addressed the Chinese club in their own language and various speeches were made. After the meeting a very pleasant supper was served chiefly in honor of Miss E. Whitcomb and Miss McDonald, who had done much for the Chinese through night school work. The occasion was one of great interest and pleasure to all.

On Tuesday a full day followed at Medicine Hat and after a celebration of the Holy Communion at Holy Trinity, the school opened again to hear a lecture by Rev. R. A. Hiltz in St. Barnabas' hall on the "New Gospel Lesson." The teachers present followed his instructions, which were very clear and to the point, with great benefit to themselves. Fitting the lesson to come within the child's experience, unifying the teaching so that it may lead from grade to grade, and linking up the instruction for the daily life of the child, were among the interesting points. In conclusion he made it clear that Sunday school work was among the highest forms of national service.

After prayer at noon, the school was entertained to an excellent luncheon provided by the W. A. C. of St. Barnabas. The first lecture after lunch was given by Mr. Ward on the work that is being done among the Chinese of the Dominion. Mr. Ward is well known as having been chiefly instrumental in "cleaning up" in spite of every kind of difficulty, the Chinese gambling joints and low houses in one of the greatest western cities—places which were a scandal and a disgrace to Canadian civic life. He described in his lecture the problem of the Chinese question. There were 30,000 Cantonese in Canada. To despoil them was difficult, but seeing they had been allowed into the country they were responsible for them. There was the anti-oriental feeling—the unions in British Columbia were all ways planning to drive out the yellow man—and then there was the anti-occidental feeling, the antipathy of the Chinese for the white man. This was not to be wondered at when 28,000 Cantonese coolies had had to pay fourteen million dollars head tax in eleven years. How had this been spent? Certainly not in helping them. They had been left to live in vice and equality, and they feel this.

Mr. Ward then showed what was being done. He spoke of meetings he had held for the Chinese at which they had turned out in great numbers to hear the preaching of the "Jesus Religion." At one such meeting 1,500 Chinese were present and the Chinese crowd was on the platform.

Mr. Hiltz then gave a most interesting and practically helpful instruction in the method of teaching the church catechism and showed how it could be made to be a living thing to scholars. It was followed by Prof. Cosgrove, who took for his subject the Gospel of St. Mark. Prof. Cosgrove proved himself a lecturer of the first water. His description of political, social and religious life in New Testament days was a revelation of how absolutely interesting the study of the New Testament can be; and his rapid survey of St. Mark's account of the life of Our Lord made the hearts of his hearers burn within them.

In the evening he gave a sketch of the growth of the Anglican Church throughout the Dominion, recalling many famous missionaries' names and relating heroic exploits in the far west and in the Arctic regions.

The whole summer school was an undoubted success and the meeting concluded with speeches of appreciation and thanks to the lecturers and expressions of keen desire that the experiment of this year be repeated next year and enlarged upon. Next

at Redcliff and Medicine Hat the numbers attending the lectures were beyond expectations and another year there will be undoubtedly really large gatherings now that the idea of the Summer School has been so well introduced into this district.

CHURCH NOTICES

CHURCH OF ENGLAND.
Friday—Evening and intercession, for the war, 7:45 p. m. Choir practice 8:10.

Sunday—Holy communion at 8; matins at 11. Sunday school at noon. Evensong 7:30.
Monday—Social gathering at the park.
Sunday, July 21—Services at Box Springs at 8:30.

BAPTIST CHURCH.
Sunday school at 2:15. Services at 7 p. m. conducted by Rev. Mr. Blundell of Medicine Hat.

THE PRESBYTERIAN CHURCH.
Divine worship on Sabbath at 11 forenoon and half past seven evening. Forenoon discourse: "The Present Hopefulness of the Bleared Hope." Evening sermon: "The Joy of Serving Jesus."

The school and Bible class at 12 noon.
Divine worship at Boxell at three afternoon.
Sabbath school teachers' meeting on Tuesday at eight evening.

CATHOLIC CHURCH.
Until further notice services will be held in Crowe's hall on the second and fourth Sundays of each month.

BIBLE ROUND TABLE.
Some or all of these questions will be discussed at the Bible Class next Sunday afternoon. Bring them with you. If you cannot attend class take an hour to work them out at home.
1. Where do you find God's Word?
2. The Bible's place as literature.
3. Its place as history.
4. Its claim as the revelation and law of God. What proofs that it is God's Word?
5. What profit is there from Bible study?
6. Is the redemption for the wilfully ignorant?
7. How is the reading of the Bible made effectual to salvation?

Don't fail to see the stock exhibit of Frank Collicutt, Cross Field, Alta., James Bowman, Guelph, Ont., J. N. Warrington, Cornwall, Ont., and many others, at Medicine Hat, July 18th, to 20th.

U.S. Plan to Give

Help to Russia

Entente governments through their embassies in Washington are now fully advised of the views of the Washington administration as to the best means of carrying out President Wilson's pledge to "stand by Russia." It is understood that a project is taking shape which it is hoped will counteract German influence and lead the people to rehabilitate themselves without exciting distrust of the unselfish motives which are behind it.

While any official statement of the administration's policy still is withheld, there is reason to believe that the proposal to send American business men to Russia to carry material aid to the people with armed guards to insure the safety of the personnel and supplies from German aggression, is forming the basis of the negotiations now proceeding with unusual rapidity between Washington and the entente capitals. Only it is assumed a new phase through injection of the idea to make the commission commission, the tending to disarm any suspicion of the people of Russia that their country is to be exploited in the interests of a single power.

This measure is far short of the original desires of the entente governments which frankly favored the dispatch into Siberia and perhaps into European Russia through the Archangel or Kola route, of a joint military expedition.

Huns to Send

Aid to Austria

Germany will send three army corps to the aid of Austria, according to a Rome dispatch to the Temps. These will be put under the direct orders of Gen. Otto von Below, the commander-in-chief on the Italian front, and will be assigned to the Alpi mountains. It is stated. The Trentino railways have been put under German control and will be used exclusively for German troops. It is stated that German regiments will be detailed to other points on the front to support the Austrian troops.

The Redcliff Review

ITEMS OF LOCAL INTEREST

Watch Bill Keats' Cash and Carry advertisements.

Mrs. Meek, of Breslau, is at present in Calgary, visiting her brother.

Mrs. C. T. Hall, who has been visiting friends in Ontario, returned home last Saturday.

See the world's fastest auto races. Drivers at Medicine Hat July 18th to 20th.

FOR SALE—Twenty-five young chickens, about eight weeks old. Mrs. R. C. Helling, Arlington.

See the greatest exhibition of live stock and poultry ever exhibited west of the Great Lakes at Medicine Hat, July 18th to 20th.

The Junior Red Cross girls will serve tea and refreshments in the Red Cross rooms every Saturday afternoon. All are invited to attend.

Mrs. Tweed and children, of Brooks, returned home last Monday, after spending a week in town, the guests of R. Waddell.

The Dominion government is making preparations for floating another Victory Loan. It is expected it will be for half a billion dollars and will be put on some time in November.

While at work with some horses on the Rainy Hills ranch north of town, Robt. Clare met with an accident, as a result of which he broke several ribs. He is now progressing favorably.

FARMERS—If you want to borrow money see Shiner Agencies.

Mrs. Shiner, the aviatrix, who is giving exhibitions at the different fairs in the west, flew from Calgary to Edmonton in two hours. She carried a mail bag containing 250 letters.

Mr. and Mrs. F. Crear, of Essex, Montana, spent a few days in town last week, the guests of Mr. and Mrs. W. J. Fairbairn. Mr. Crear is a brother of W. Crear, formerly of this town.

An idea of the importance of the cattle industry in this province may be gathered from the fact that during the last eighteen months 100,000,000 pounds of beef have been shipped overseas by Alberta packing plants.

This week Mr. and Mrs. John Kitchen of this town received the military medal which was presented to their son Isaac for conspicuous bravery on the battle field. Naturally the parents prize the coveted trophy very highly. Accompanying the medal were a number of souvenirs of the trenches.

R. Wray and his son, Percy, made a trip to Medicine Hat and return last Tuesday by the river route in a canoe. So thoroughly did they enjoy the outing that Richard is now thinking of starting regular trips to carry passengers in opposition to the jitneys. He may start in with a tri-weekly service. That is, go down one week and try to get back the next.

The following articles were shipped for the local Red Cross branch this week: Five and half dozen pairs socks; 6 dozen handkerchiefs; 1 dozen T handkerchiefs; 2 dozen slippers; 1 dozen operating gowns; 4 dozen pillow slips; 12 dozen towels; 1 dozen hot water bottle covers; 4 dozen face cloths; half dozen pajamas; 2 dozen many-tail bandages.

Mrs. (Dr.) Brown and daughter are holidaying at Banff this week.

Mrs. Gibson of St. Ambrose, paragon, returned home last Friday, after visiting friends in Ponca, Sask.

"Over the Top" with the premier summer attraction, Medicine Hat July 18th to 20th.

W. T. Lockwood, R. R. Stoner and Lon Barber motored over to Havre, Mont., yesterday on business. They are expected to return this evening.

You will see the largest crowd ever congregated in any town of our state at America at Medicine Hat July 18th to 20th.

At the tea hour last Friday Mrs. Harbert entertained in honor of her sister, Mrs. Munderlow, of Montreal, who has been visiting here for the past few weeks.

The victory of St. Ambrose church has arranged for an open air gathering in the town park on Monday evening, July 14th. The Redcliff Citizens Band will be in attendance and short addresses will be given by Rev. G. L. Gordon and Rev. H. C. B. Gibson. During the evening there will be a program of sports for the children. Ice cream and soft drinks will be served. All are invited to this "get together" gathering.

Mrs. McClellan of Toronto, is the guest of Mrs. Lupton this week.

Mr. and Mrs. McFarlane, of Toronto, were guests of Mr. and Mrs. W. J. Fairbairn for a few days last week.

Don't miss the aviation feats by Katharine Stinson, world's greatest aviatrix, at Medicine Hat, July 18th to 20th.

There is some talk of raising the subscription price of weekly papers to \$2.00 a year. Now is the time to subscribe for the Review at \$1.50.

Mrs. R. H. Stoner entertained a pleasant picnic party on the banks of the river yesterday and evenings. A most enjoyable afternoon of bathing, fishing and outdoor games was spent. The large bluff on the bank of the river just south of town makes an ideal spot for such an outing.

At Medicine Hat July 20th such well renowned auto race drivers as Sig Haugdahl, Leon Duray, Jules Ellingboe, Clifford Toft and Will Bill Elliott will compete for large cash prizes.

BIRTH. CALDERWOOD—In Redcliff, on Wednesday, July 10th, 1913, to Mr. and Mrs. John Calderwood, a daughter.

The members of the Junior Red Cross intend holding a tag day next Saturday. As the proceeds are for the society we trust they will be well patronized.

"And now what's this?" grunted the hungry husband. "That's another kind of war bread. You know we must overcome the Hun with food," replied the patriotic wife. "Well, this'll do it all right, if you can get it to 'em."

Mr. and Mrs. Carl Hargrave, who have been in Toronto, where Mr. Hargrave was training for the aviation service, are expected home this week to visit Mrs. Hargrave's parents, Mr. and Mrs. A. W. Woodcock. Mr. Hargrave expects to leave shortly for overseas.

MEN NEEDED FOR HARVEST.

According to the latest estimate of the authorities in charge of the production campaign in the various provinces in Canada, able-bodied men will be needed for the harvest as follows:

British Columbia, from 2,000 to 3,000.
Alberta, from 6,000 to 7,000.
Saskatchewan, 20,000.
Manitoba, 10,000.
Ontario, 12,000.
Quebec, 12,000.
New Brunswick, 2,000 (?)
Nova Scotia, no outsiders needed.
Prince Edward Island, no outsiders needed.

These men will have to come from towns and cities of their respective provinces in most cases. New is the time to plan, prepare and organize.

NO DANGER OF SUGAR FAMINE. Definite assurance that there is no danger of a sugar famine were given by the federal administration of the United States, and the food situation

generally was declared to be better than at any time since America undertook the feeding of the allies.

VANCOUVER WOMEN PLEDGED.

At a mass meeting of nearly two thousand women in Vancouver the pledge was made to conform exactly to the requirements of the Canada Food Board and to apply all restaurant regulations in their own homes. Furthermore it was "especially resolved to discontinue any food functions which promote the consumption of wheat products, pork, sugar and fats."

American pursuit planes flying in squadron formation strafed German occupied territory north of Chatanau-Telery for a distance of 80 miles and chased several German machines which they encountered. The Americans secured considerable information and observed the preparations being made by the enemy.
